

# Auto Seeder

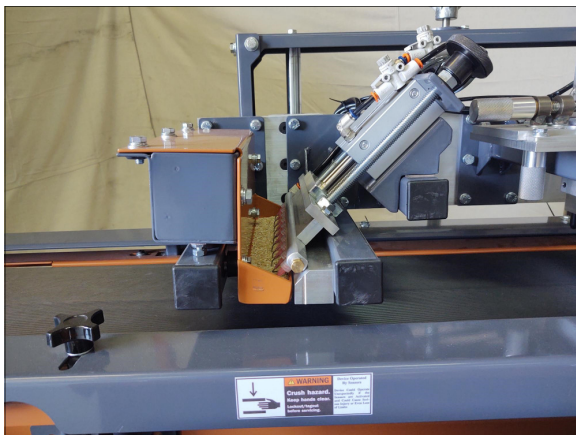

LAWSON PRO SERIES 

## Pro Series Auto Seeder

The KALCO Auto Seeder was designed to accommodate multiple tray and seed sizes, with one adjustment for tray height and easily adjustable width setting.

Our One Shot Configuration system (OSC system) uses a common sense approach to set up your trays. Using manual adjust and electronics you can perform your setup with confidence and accuracy in a matter of seconds while using only 110V AC and 100PSI compressed air.

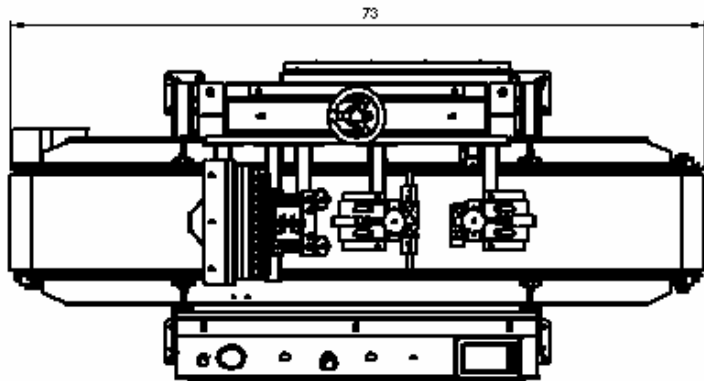

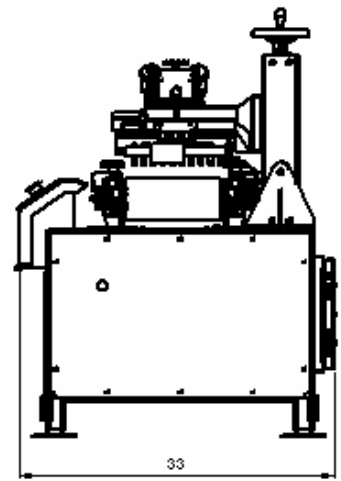

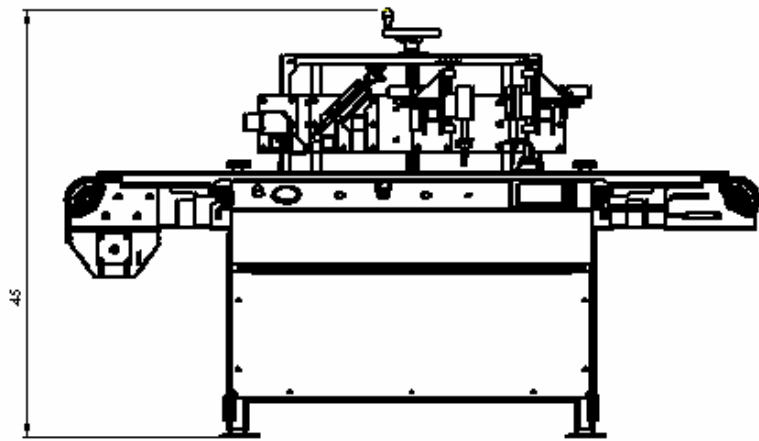

### Features

- 110v Input / 20 Amp
- 100PSI Compressed Air
